Safety Information

Chipper Operation Safety: Safe operation of the chipper is crucial Brush for the chipper should be stacked in a way that makes it easy and convenient for the operator to feed the chipper The butt-ends of the brush should face the chipper infeed Place the brush stacks at a good distance from the chipper to allow the operator a clear path

Wood Chipper & Stump Grinder Basic Operations ...

BASIC CHIPPER SAFETY When feeding the chipper it is recommended to feed the material while standing on the right side of the infeed hopper [curb side in the USA] When feeding wood into the chipper, feed the butt end of the branch or limb first It will start better in the feed wheels, and it will help to fold the side limbs and branches
