new localities (traps) were observed, while six locations, including Bellbird Bush, Bellbird Bush—50 m car park, Golden Bay—Waiharakeke, State Highway 63—St Arnaud, Pelorus 2 and Pelorus 3, include traps that collected A neozealandiae over both trapping periods (as indicated by the trap no and date of collection) Datum locations

Book review Birds of the World: Recommended English names

Rule 8 - Bird names may be single words or plural Rule 9 - The word "Island" be removed from names unless "misleading" Rule 10 - Names including widespread words such as warbler for many groups would not be changed Thus, of these "rules" only the wording of 3, 4, 5 and 9 really makes them rules; the rest are, at best, guidelines

New Zealand Journal of Zoology

reported from seven localities Extensive pitfall not be distinguished by different names they have (traps) were observed, while six locations, including Bellbird Bush, Bellbird Bush—50
