The Chinchaga Firestorm

OHS Canada

The true story behind the events that inspired the major motion picture *Only the Brave*. A "unique and bracing" (Booklist) first-person account by the sole survivor of Arizona's disastrous 2013 Yarnell Hill Fire, which took the lives of 19 "hotshots"--firefighters trained specifically to battle wildfires. Brendan McDonough was on the verge of becoming a hopeless, inveterate heroin addict when he, for the sake of his young daughter, decided to turn his life around. He enlisted in the Granite Mountain Hotshots, a team of elite firefighters based in Prescott, Arizona. Their leader, Eric Marsh, was in a desperate crunch after four hotshots left the unit, and perhaps seeing a glimmer of promise in the skinny would-be recruit, he took a chance on the unlikely McDonough, and the chance paid off. Despite the crew's skepticism, and thanks in large part to Marsh's firm but loving encouragement, McDonough unlocked a latent drive and dedication, going on to successfully battle a number of blazes and eventually win the confidence of the men he came to call his brothers. Then, on June 30, 2013, while McDonough--"Donut" as he'd been dubbed by his team--served as lookout, they confronted a freak, 3,000-degree inferno in nearby Yarnell, Arizona. The relentless firestorm ultimately trapped his hotshot brothers, tragically killing all 19 of them within minutes. Nationwide, it was the greatest loss of firefighter lives since the 9/11 attacks. *Granite Mountain* is a gripping memoir that traces McDonough's story of finding his way out of the dead end of drugs, finding his purpose among the Granite Mountain Hotshots, and the minute-by-minute account of the fateful day he lost the very men who had saved him. A harrowing and redemptive tale of resilience in the face of tragedy, *Granite Mountain* is also a powerful reminder of the heroism of the people who put themselves in harm's way to protect us every day.

The dramatic story of one of the biggest natural disasters in Canadian history, the Fort McMurray wildfire of 2016, told by three of the firefighters who fought to save the city. On May 1, 2016, a wildfire burning to the southwest of Fort McMurray, Alberta, led to the declaration of a local state of emergency. Two days later, the fire had reached Fort McMurray, forcing the evacuation of 88,000 citizens and destroying 2,400 buildings. In total, the fire would consume more than 500,000 hectares. Into the Fire is a remarkable first-hand account of fighting a major wildfire as it moved with terrifying speed. Over the course of six days, firefighters Jerron Hawley, Graham Hurley, and Steve Sackett of the Fort McMurray Fire Department joined local expert wildfire teams and fire departments from across the country to battle the blaze. In photographs and notes made at the time, they vividly describe what they witnessed; their own personal losses and triumphs; and the fire's devastating effects. With more than 90 stunning colour photographs, Into the Fire is a dramatic eyewitness account of one of the most catastrophic disasters in recent North American history. Intimate in its telling, it is above all a testament to the courage, pride, and extraordinary efforts of the citizens of Fort McMurray, who along with emergency personnel, came together to save their city.

continue the critical work of worldwide disease eradication. ” --Bill Gates, Co-Chair of the Bill & Melinda Gates Foundation “ Bill Foege is one of the public health giants of our times. He was responsible for the design of the campaign that eradicated smallpox—the most important global health achievement in history and possibly the greatest feat in any field of international cooperation. His insights into the nature of this major event will undoubtedly help to meet the global health challenges of the 21st century. ” —Julio Frenk, M.D, PhD, Dean, Harvard School of Public Health “ The eradication of a disease has long been the holy grail of global health and Bill Foege found it: more than any other person, he was responsible for the eradication of smallpox from the face of the earth. This is a story told by a remarkably humble man, about the extraordinary coalition that he helped to build, and the most impressive global health accomplishment the world has ever seen. ” —Mark Rosenberg, author of Real Collaboration: What It Takes for Global Health to Succeed “ I am thrilled that Bill Foege, one of the great heroes of the smallpox eradication campaign, has written this important book. It tells a beautiful human story of an incredible public health triumph, and is full of lessons that could be applied to many of the global challenges we face today. ” —Helene D. Gayle MD, President and CEO, CARE USA “ Bill Foege ’ s House on Fire is the first-hand account of how a revised strategy to eradicate smallpox was tested, validated, and applied. Without the global adoption of this new surveillance strategy, the final deathblow to this longtime global menace might never have been dealt. ” —Adetokunbo O. Lucas, MD, DSc, author of It Was The Best of Times: From Local to Global Health “ Smallpox is the most devastating disease the world has known, as it destroyed lives and shaped history over the centuries. House on Fire provides a day-to-day account by my friend Dr. Bill Foege of the battle required to defeat this wily and diabolic virus.”--President Jimmy Carter

Firefight is a compilation of Rick Kurelo's personal accounts as a professional firefighter in Canada and as a Canadian Forces soldier in Afghanistan and Bosnia. Ninety-seven stories and forty-five photos document Rick's experiences at scenes of chaos and conflict, where he and his teams encounter one dangerous scenario after another. They convey the deadly tensions, pressures and risks that can arise at any moment, as well as the poignant human connections that often occur. Firefight is a memoir that brings to life the human experience - the tragic, touching and humorous - that we all share.
