Dead mink culled in Denmark because of fears over a COVID-19 mutation were reported to be rising from their graves this month as their bodies expanded during the decaying process.

### How Dead Mink Are Rising From the Grave, Explained by Science

5: Computer Science E-75 (Harvard College) Computer Science E-75 by the same professor is another excellent beginner-level course for learning Computer Science basics. At the time of writing this, the most recent content is a few years old (from 2012). However, the fundamentals for the topics are still accurate.

### Free Will Explained How Science

Definitions. A Gaussian Mixture is a function that is comprised of several Gaussians, each identified by  $k \in \{1, \dots, K\}$ , where  $K$  is the number of clusters of our dataset. Each Gaussian  $k$  in the mixture is comprised of the following parameters: a mean  $\mu$  that defines its centre. A covariance  $\Sigma$  that defines its width. This would be equivalent to the dimensions of an ellipsoid in a

‘ Three-parent ’ babies explained: what are the concerns and

Science Fiction to launch you into another world! Science fiction books are an amazing way to escape into the future or to a distant planet or galaxy to discover advanced alien civilisations and technology only limited by the imagination of the author.

### Mars trilogy - Wikipedia

Sorting algorithms are a set of instructions that take an array or list as an input and arrange the items into a particular order. Sorts are most commonly in numerical or a form of alphabetical (called lexicographical) order, and can be in ascending (A-Z, 0-9) or descending (Z-A, 9-0) order.
