Humanities are academic disciplines that study aspects of human society and culture. In the Renaissance, the term contrasted with divinity and referred to what is now called classics, the main area of secular study in universities at the time. Today, the humanities are more frequently defined as any fields of study outside of professional training, mathematics, and the natural and sometimes

### Historical geography - Encyclopedia Britannica

Historical geography, geographic study of a place or region at a specific time or period in the past, or the study of geographic change in a place or region over a period of time. The writings of Herodotus in the 5th century bce, particularly his discussion of how the Nile River delta formed, probably provide the earliest example of what would be called historical geography today.
