Native plants are those species that evolved naturally in a region without human intervention. Red maple (*Acer rubrum*), flowering dogwood (*Cornus florida*), and butterfly weed (*Asclepias tuberosa*) are examples of the over 3,900 species of plants the U.S. Department of Agriculture (USDA) PLANTS Database lists as native to North Carolina. These plants developed and adapted to local soil and

Burpee Pawpaw Collection, 2 Live Plants "The Pawpaw collection consists of 2 pawpaw plants of two different varieties so the plants will pollinate one another for better fruit production. They are shipped as 1-year plants in a 4-inch pot and are about 12-18 inches in height. First fruits appear about 3 years after planting."

Bing: Manual Of Woody Landscape Plants

My favorite tree authority, Mike Dirr, author of "Manual of Woody Landscape Plants," could not limit himself to just one or two. He e-mailed, saying, "I love *Nyssa sylvatica* (black tupelo), *Fagus grandifolia* (American beech), *Quercus alba* (white oak), *Liriodendron tulipifera* (Tulip tree) and *Quercus bicolor* (Swamp white oak) for starters."
