This is a book of awareness and love. The correspondence between two girlhood friends from Sault Ste. Marie, Michigan launched the “anniecat chronicles” project. With thoughts and events to share, they embraced email and bridged the miles and the years between Michigan and South Carolina. A wealth of remembrances, including Campfire Girls, failed romances, class reunions and their 80th birthdays, are recorded with splendid humor and devotion to narrative. Interwoven in the chronicles are the author’s short stories and poetry, her tribute to the beauty of life in the northwoods and to the joy of family.

It's 1771 and I've just gotten a secret message from Father who - all of New Bedford says-went down with his ship in 1769, when I was eleven. I know I promised my old friend Wayland not to put to sea without Mother's permission, but what's more important - keeping a promise or finding Father? If you want to come with me, help me find a ship bound for the South Atlantic, and we'll search together for a legendary island, and Father. But watch out for a smelly, slim, oily-looking sailor with a tattoo of a viper coiled around his arm. We're going to leave him far behind

They flew over the Barrens, frozen lakes, boreal forests and mountain ranges by dead reckoning and line of sight. They landed on makeshift runways, glaciers, muskeg, tundra and glassy lakes. Comrades of the wilderness, they were Canada's early bush pilots. L.D. Cross brings us the incredible stories of the brave

and enterprising pilots who rolled back the boundaries of western and northern Canada, delivering mail, medicine, miners and all the supplies needed by frontier settlements. Flying such planes as Curtiss, Bellanca, de Havilland, Fairchild, Junkers, Norseman, Stinson and Vickers, they were the off-roaders of aviation, venturing where no others dared to go. Climb into the cockpit with these pioneering pilots for an exciting trip into Canadian aviation history.

Sometimes the hardest battle is the one after the war. As one of the soldiers on the front line of Operation Iraqi Freedom, Lieutenant Scotti was taught that weakness is what gets you killed: no hesitation, focus your energies on your objective, and complete the mission. Upon returning from war, Scotti approached his new life the same way. He ignored the creeping depression and numbness he called "The Blue Cascade" and charged ahead toward his goal to get an MBA, secure a high-paying finance job, and retire young and rich. But he was being eaten away inside, and scenes of drunken emotion and raging violence were becoming more and more frequent. Years after returning from active combat, he eventually found himself contemplating suicide. Through a series of powerful events, Scotti was ultimately able to find a path to healing and begin his journey back to life, finally

Chronicles of a Cabin Crew took almost two years to be concluded. It is the sequel of Underneath a Flight Attendant, which is Soraias biography and first novel. The author emphasizes the importance of some chapters on the introduction (foreword) of the book. Nostradamuss chapter is one of those also mentioned in the cover of this book. Soraias comes from a psychic/medium family and is openly sharing her premonitions for the near future (2013/14) with the world. She also finds herself very funny and loves to bring laughter into others peoples lives. Shes created this extroverted book that will entertain you and make you laugh rather than being just about her serious paranormal experiences. I keep telling people that I have no hidden agenda rather trying to spread the truth. My premonitions have never betrayed me. If Im looking forward to becoming famous, it is only with the purpose to enable my message to be heard and accepted without skepticism. I believe that we are at the edge of an era lacking love, but mostly understanding of God.

Learn proven, real-world techniques for specifying software requirements with this practical reference. It details 30 requirement “patterns” offering realistic examples for situation-specific guidance for building effective software requirements. Each pattern explains what a requirement needs to convey, offers potential questions to ask, points out potential pitfalls, suggests extra requirements, and other advice. This book also provides guidance on how to write other kinds of information that belong in a requirements specification, such as assumptions, a glossary, and document history and references, and how to structure a requirements specification. A disturbing proportion of computer systems are judged to be inadequate; many are not even delivered; more are late or over budget. Studies consistently show one of the single biggest causes is poorly defined requirements: not

### **Nightshade City**

An “addictive volume” of amphetamine stories from William T. Vollmann, Sherman Alexie, and more (Publishers Weekly). Speed is the most American of drugs: twice the productivity at half the cost, and equal opportunity for all. It has reinvented itself many times, from miracle cure to biker-gang scourge and everything in between. It goes by many names: crystal meth, amphetamines, Dexedrine, Benzedrine, Adderall; crank, spizz, chickenscratch, oblivious marching powder, the go-fast. And it crosses all ethnicities, genders, and geographies—from immigrants and heartlanders punching double factory shifts to clandestine border warlords; prostitutes to housewives; Hollywood celebs to the poorest Indian on the rez—and they all have plenty of stories. Here is the first contemporary collection of new short fiction dealing with the drug from an array of today’s most compelling authors. The elements of crime and tweaking, bleary-eyed zombies exist alongside heart-wrenching narratives of everyday people, the American Dream going up in flames, and even some accounts of pure joy. Featuring brand-new stories by: Sherman Alexie, William T. Vollmann, James
