Monsoons in India, read more about the monsoon winds of

Monsoon definition, the seasonal wind of the Indian Ocean and southern Asia, blowing from the southwest in summer and from the northeast in winter. See more.

Asia - geography online games

Derived from mauism, the Arabic word for "season," a monsoon often refers to a rainy season ☐ but this only describes the weather a monsoon brings, not what a monsoon is. A monsoon is actually a seasonal shift in wind direction and pressure distribution that causes a change in precipitation.

Monsoon | Definition of Monsoon at Dictionary.com

The etymology of the word monsoon is not wholly certain. The English monsoon came from Portuguese monção, ultimately from Arabic mawsim (موسم "season"), "perhaps partly via early modern Dutch monson.". History. Strengthening of the Asian monsoon has been linked to the uplift of the Tibetan Plateau after the collision of the Indian sub-continent and Asia around 50 million years ago.

Chinese Geography: Readings and Maps | Asia for Educators

The monsoon of South Asia is among several geographically distributed global monsoons. It affects the Indian subcontinent, where it is one of the oldest and most anticipated weather phenomena and an economically important pattern every year from June through September, but it is only partly understood and notoriously difficult to predict. Several theories have been proposed to explain the

Holocene variability of East Asian summer monsoon as

Asia is the world's largest continent by land area and population, home to 4.4 billion people, more than half of the world's population.. The continent is too massive and diverse to conceptualize as a single digestible travel "destination". Travel options range widely, from the desert ruins and modern mega-malls of the Middle East to the magnificent ancient monuments and giant mountains in

History of Southeast Asia - Wikipedia

Summer Monsoon weather is characterized by a strong, generally West or southwest breeze that is responsible for bringing significant rainfall to the Asian subcontinent and to South and East Asia. The significant southwest monsoon rainfall is a by-product of air passing over large areas of warm equatorial ocean, stimulating increased levels of

Monsoon Season: What It Is, Causes, and Hazards

(The summer rains are borne by monsoon winds, determined by the land mass of Central Asia: in the winter, the cold, dry heavy air over Central Asia flows outward toward the sea; in the summer months, the warm air over the Central Asian land mass rises and cooler, moist air from the ocean flows back bringing rainfall over the land.) [See Notes

Asia: Resources | National Geographic Society

Asia is the largest of the world's continents, covering approximately 30 percent of the Earth's land area. It is also the world's most populous

continent, with roughly 60 percent of the total population. Asia makes up the eastern portion of the Eurasian supercontinent; Europe occupies the western portion. The border between the two continents is debated.

Indonesian capital slammed by monsoon floods, more than

In monsoonal East Asia, multiple factors have been shown to affect the $\delta^{18}O$ of dripwater (i.e. amount-weighted $\delta^{18}O$ of precipitation, changes in summer: winter precipitation ratio (Wang et al., 2001a), rainout between tropical oceanic sources and the cave sites (Yuan et al., 2004), changes in the fraction of summer monsoon rainfall with

The wide topographical diversity of Southeast Asia has greatly influenced its history. For instance, Mainland Southeast Asia with its

continuous but rugged and difficult terrain provided the basis for the early Khmer and Mon civilisations. The sub-region's extensive coastline and major river systems of the Irrawaddy, Salween, Chao Phraya, Mekong and Red River have directed socio-cultural and

Monsoon - Wikipedia

The major colonizers of Southeast Asia were Europeans, Japanese and the U.S. All in all, there were seven colonial powers in Southeast Asia: Portugal, Spain, the Netherlands, Great Britain, France, the United States, and Japan. From the 1500s to the mid-1940s, colonialism was imposed over Southeast Asia.

Demining of Azerbaijan's liberated lands continues (VIDEO)

Asia, the world's largest and most diverse continent. It occupies the eastern four-fifths of the giant Eurasian landmass. Asia is more a geographic term than a homogeneous continent, and the use of the term to describe such a vast area always carries the potential of obscuring the enormous diversity among the regions it encompasses. Asia has both the highest and the lowest points on the

COLONIALISM AND NATIONALISM IN SOUTHEAST ASIA

Rajasthan, state of northwestern India. Before 1947 it comprised some two dozen princely states and chiefships. After 1947, when India achieved independence from British rule, the princely states and chiefships were integrated into India in stages, and Rajasthan assumed its present name. The capital city is Jaipur.

Monsoon of South Asia - Wikipedia

One way in which two kingdoms in Southeast Asia differed in the period c. 1200 to c. 1450 is their religion. The Srivijaya Empire and the Majapahit Kingdoms were both sea-based kingdoms in Southeast Asia. However, the former was Hindu while the latter was Buddhist.
