Stone Artifacts of Texas Indians

Useful for academic and recreational archaeologists alike, this book identifies and describes over 200 projectile points and stone tools used by prehistoric Native American Indians in Texas. This third edition boasts twice as many illustrations—all drawn from actual specimens—and still includes charts, geographic distribution maps and reliable age-dating information. The authors also demonstrate how factors such as environment, locale and type of artifact combine to produce a portrait of these ancient cultures.

The Native American tribes of what is now the southeastern United States left intriguing relics of their ancient cultural life.

Arrowheads, spear points, stone tools, and other artifacts are found in newly plowed fields, on hillsides after a fresh rain, or in washed-out creek beds. These are tangible clues to the anthropology of the Paleo-Indians, and the highly developed Mississippian peoples. This indispensable guide to identifying and understanding such finds is for conscientious amateur archeologists who make their discoveries in surface terrain. Many are eager to understand the culture that produced the artifact, what kind of people created it, how it was made, how old it is, and what its purpose was. Here is a handbook that seeks identification through the clues of cultural history. In discussing materials used, the process of manufacture, and the relationship between the artifacts and the environments, it reveals ancient discoveries to be not merely interesting trinkets but by-products from the once vital societies in areas that are now Alabama, Arkansas, Georgia, Kentucky, Louisiana, Mississippi, the Carolinas, as well as in southeastern Texas, southern Missouri, southern Illinois, and southern Indiana. The text is documented by more than a hundred drawings in the actual size of the artifacts, as well as by a glossary of archeological terms and a helpful list of

Lar Hothem, author of the bestselling series, *Indian Artifacts of the Midwest*, and several other books on arrowheads, pipes, and trade relics, is widely known for his research in the field of Indian artifacts. His latest book, complete with more than 2,200 color photographs, features the highly valuable chipped points and blades, plus many of the sometimes overlooked minor tool types. All of the basic Paleo artifacts and classes are shown and described, and interesting facts about ancient Paleo lifeways, supported by archaeology, are provided. Sections on discoveries and auction results will be of interest to the reader. Current values for Paleo artifacts of all types are given, and a large number of top-grade Paleo points, some never before published, are pictured. There are chapters of Paleo knives and non-point tools of all kinds, and tips on collecting these artifacts. This book contains the most Paleo artifacts pictured in any publication to date, including some of the more valuable fluted and lanceolate points in North America from some of the finest private collections. *Paleo-Indian Artifacts* offers a glimpse into an ancient world as revealed by the tools and weapons. 2008 values.

making in the American Southwest. Beginning in the late 1860s, the region's native peoples learned metalworking and united it with a tradition of beads and ornaments made from turquoise and other natural materials. The cross-cultural appeal of this jewelry continued into the mid-1900s, and by the 1950s and 1960s masters created a legacy of fine art jewelry that is prized today.

The many 19th and 20th century American Indian collectibles showcased in this book especially embrace authentic weapons and weapon cases, horse gear, tools, stone pipes, and ceremonial items. Actual old trade goods, such as Hudson's Bay collectibles, trade beads, trade cloth, and trade blankets, are also featured. Contemporary replicas of traditional Indian art appear, including clothing, ornamented blankets, pouches and bags, parfleches, and more. Extensive text provides valuable information for collectors on identifying old and new artifacts, plus fascinating background on Indian "hobbyists" around the world. The range of items in each category is comprehensive, and detailed descriptions will be useful for both sellers and collectors. The values reflect actual auction estimates and results. The authors' companion volume, *The New Four Winds Guide to American Indian Artifacts*, has more Indian-made items of both old and new vintage.

pressure flaking, percussion flaking, notching, fluting, and much more. No matter whether you have hunted for arrowheads or not, you might have already found some type of artifact, and didn't know it. This book shows you what to be watching for, and where to look. Featured are detailed illustrations of all sorts of items, from the simplest and crudest of stone tools, to some of the most artistically-made types of ceremonial and exotic pieces ever crafted in the ancient world. There is even information for the collector, on identifying some of the most common types of fake arrowheads, along with a short price guide. In addition, it describes how arrowheads were mounted and used on arrows, atlatl darts, knives, spears, blowgun darts, drills, axes, and many other items. Presented in-depth are several sequences illustrating how drastically an arrowhead's appearance can change with use and resharpening, over the course of its life. Plus, there are suggestions on cataloging and displaying your collection in creative ways, without damaging your artifacts. It even shows you how you can illustrate your own arrowheads. This primer makes an excellent introduction for any beginning Indian artifact enthusiast!

built an extraordinary collection of over 4000 everyday objects of mid century New Zealand craft, design and folk art. From furniture to toys and games, tableware to ornamental objects, Royal Family memorabilia to Kiwiana, Crown Lynn to hand-coloured scenic posters, together these objects are a gloriously nostalgic, colourful and tangible record of the way we lived and the things we surrounded ourselves with. Christine has devoted her classic 1960s seaside bach, 'The Butterfly House' to housing her collection, transforming it into a beguiling mid-century fantasy that never fails to delight visitors. This beautiful book shares that collection for the first time, for all to enjoy. Crisp, colour-drenched photographs by Studio La Gonda bring to life the bach and all its rooms and reveal individual objects in situ through rich close-ups, taking the reader into our quirky, crafty and often 'make do' past. Christine's intimate, lively, deeply informative text tells the story of how it all came to be. She entertainingly blends her own family stories with those of New Zealand's manufacturers and craftspeople, sharing her journey into collecting as well as her knowledge and passion, and evoking nostalgia for the beach, the bach and bygone summers. This is a deeply immersive, generous book that celebrates twentieth century life in Aotearoa New Zealand and provides an important record of our social and cultural history.

While most Indian artifacts fall into distinct and well-known classes, there are others that do not. These artifacts can be so rare (like undamaged Archaic birdstones or Mississippian maces) that many collectors do not have even one example. Other artifacts are unusual because they are extra-large or miniature, or are a variety not often seen or are made of a material not often used. Rare & Unusual Indian Artifacts explores artifact differences, in more than 1,600 color photographs, from those that are out of the ordinary in some way to those that are truly one-of-a-kind. Rare and unusual artifacts have always commanded attention due to both scarcity and high collector interest. This is because such atypical artifacts help complete or round out a collection. They also provide a glimpse of the wide range of quality artifacts turned out by America's long-ago artisans. 2007 values.
